My dear Sir

On my return from
the West today my attention has been called
by your letter of the 22nd - I request that you
have every cause for complaint, the defects
you allude to are easily traceable to the
immense rush of the work, working
nights & the employment of some
help in inspecting the work. We will do our
best to remedy the trouble. Any clipped
or imperfect blanks you find in working on
will make good by sending good blanks in place
of them. The Scovill racket we can & will
stop. This is an old trouble & shall occur when
work is rushed through. Yours truly
P.S. The work going through today
looks very nice & clear.
